

VOLTMETER TO 1000 V in flameproof enclosure with built-in scale illumination TYPE HA-MG 1417

Features

- Voltmeter in a flameproof enclosure with built-in LED scale illumination
- Cable bushings 2 x 1.5 mm²
- External thread M 56 x 1.5 at the sight window to screw into the side of housings of protection type flameproof enclosure (EEx d I)
- Other display ranges and parameters available if desired

Types of protection

Type of protection: EEx d I
Level of protection: IP 54

Technical Data:

- | | |
|-----------------------------------|----------------|
| ● Designed operating voltage | 1000 V AC |
| ● Designed operating current | 7 mA |
| ● Display range | 0 - 1300 V AC |
| ● Power dissipation max. | 10 W |
| ● Ambient temperature | -20 to 120°C |
| ● Dimensions: | |
| Length without connecting piece | approx. 150 mm |
| Diameter | approx. 76 mm |
| ● Weight without connecting piece | approx. 2000 g |

Certification

BVS No. 91.B.1088 U
